## oxiDYE

oxiDYE is a Hydrogen Peroxide based bleaching / stain killing formula that aggressively attacks the most persistent staining left behind following microbial remediation. When coupled with mechanical action for maximum material penetration, this formula removes the staining left behind by microbial contamination. The product does not contain chlorine bleach, dyes or perfumes and is biodegradable. oxiDYE is ready to apply directly from the container and is suitable for use on both porous & non-porous building surfaces including flooring, drywall, ceiling tiles, wood, brick, etc...
